CAREER OBJECTIVE

Results-driven MCA graduate seeking a Junior Web Developer / Software Developer role where I can apply my hands-on experience in full-stack web development, REST API design, and database management. Proven ability to deliver scalable, end-to-end projects, demonstrated through a successful internship involving the development of a production-grade IT Asset Management System. Passionate about building efficient, user-focused applications and continuously learning modern technologies.

EDUCATION

Master of Computer Applications (MCA)	2024 – 2026 77.2%
	Gobi Arts & Science College (Autonomous)
Bachelor of Computer Science (B.Sc. CS)	2021 – 2024 72.6%
	Gobi Arts & Science College (Autonomous)
HSC (Class XII)	2021 85.6%
	M.P.D Govt. Hr. Sec. School, Thingalur
SSLC (Class X)	2019 83.4%
	M.P.D Govt. Hr. Sec. School, Thingalur

INTERNSHIP

Web Developer Intern / Legendary One, Gobichettipalayam Dec 2025 – Mar 2026

- Gained hands-on experience in Full-stack web development using Node.js, Express.js, HTML5, CSS3, and Vanilla JavaScript by building a complete production-grade web application end-to-end.
- Applied MySQL database design and query optimization techniques, including normalization across 10+ relational tables, transaction management with InnoDB, and indexing strategies to improve query performance.
- Implemented web security best practices such as Helmet.js security headers, rate limiting, input validation using express-validator and Joi, and secure CORS configuration.
- Integrated third-party services including Nodemailer for automated emails, PDFKit for report generation, node-cron for scheduled tasks, and Jest with Supertest for unit and integration testing in a live project environment.

TECHNICAL SKILLS

Languages: Python, C++, JavaScript, HTML, CSS

Frameworks: React.js, Node.js, Express.js, Bootstrap

Databases: MySQL, MongoDB

Tools: Git, GitHub, VS Code, Postman, Android Studio

Concepts: REST API, MVC Architecture, SDLC, Agile, Unit Testing, Deployment

Soft Skills: Problem Solving, Team Collaboration, Time Management, Quick Learner

PROJECTS

AssetPro8 — IT Asset Management System | Node.js, Express.js, MySQL, HTML5, CSS3, JavaScript, REST API

- Built a full-stack IT asset management platform with role-based access (Admin/Staff), serving 500+ asset records.
- Developed 20+ REST API endpoints for asset CRUD, assignment workflows, and audit trail logging.
- Designed normalized MySQL database schema (8+ tables) achieving 40% faster query performance via indexing.
- Implemented email notification triggers for asset assignment events and a real-time KPI dashboard, reducing manual reporting by 70%.

Privacy Chat Web Application | React.js, Express.js, Node.js, CSS, REST API

- Developed a secure real-time chat application supporting 50+ concurrent users with enhanced message privacy.
- Implemented responsive UI using React.js, reducing page load time by 35% through component optimization.
- Built secure REST API backend with Express.js handling message routing and user session management.

Smart Blind Stick (IoT) | Python, IoT, Ultrasonic Sensors, Raspberry Pi

- Designed and deployed an IoT-based assistive device for visually impaired users using Python and ultrasonic sensors.
- Integrated real-time obstacle detection with buzzer/vibration feedback, improving navigation safety by 40%.

CERTIFICATE COURSES

- Android App Development using Kotlin — IIT Bombay
- Bootstrap Web Development Training — IIT Bombay
